

in_herit FESTIVAL 2026

Our Roots. Our Rhythm. Our Future.

Visit Iziko Museums of South Africa for an exciting programme exploring our histories, heritage and art!

DATE	TIME	EVENT Description	VENUE
01-30 September	09:00-17:00	Art Out Loud is a visual art showcase presented by Iziko Education in partnership with local art institutions. Dedicated to celebrating Indigenous artists, the exhibition provides a platform to share their creative work, honour heritage, and bring Indigenous perspectives to the forefront of the art world.	Groot Constantia Learning Centre
01-07 September	10:00 - 13:00	National Arbor Week Celebrate National Arbor Week (1–7 September 2026) by joining us in the Gardens for a hands-on tree-planting session to help grow a greener future.	Iziko South African Museum
07-11 September	08:00 - 17:00	Society for the Preservation of Natural History Collections 2026 SPNHC brings its annual conference to the African Continent for the first time, marking a historic gathering on the Iziko South African Museum. The conference focuses on strengthening global collaborations in collections care, advancing biodiversity research, and exploring ethical stewardship, Indigenous knowledge, and digital preservation.	
12 September	2 Hours	My Landscape Showcase launch Iziko Museums and WCED partnership supporting the Grade 10 Visual Arts curriculum. The programme gives learners the opportunity to explore landscape art through drawing workshops at Iziko, with selected artworks showcased at the Iziko South African National Gallery Annexe	ISANG, Annex

19 September	11:00-12:00	<i>Art Deco Cape Town – Facades and Fragments</i> presented by Ken McGillivray, an artist, author and editor. Trained as an architect, he spent 35 years in the design, construction, renovation and marketing of residential property. In his later years he was able to indulge his passion for books by moving into the world of editing and publishing.	TH Barry Lecture Theatre. Iziko South African Museum.
	12:00-13:00	<i>Marion Island: a window into the Southern Ocean</i> - Abuyiselwe Nguna, SAPRI's LTO-Land Research Coordinator, presents a public lecture on long-term environmental monitoring in South Africa's sub-Antarctic and Antarctic regions. His team tracks ecosystem changes, seabirds, and marine mammals at Marion Island and SANAE IV to guide vital conservation efforts.	
	14:00-15:00	<i>Conserving our technological heritage</i> - This public lecture will be presented by Prof. Mike Bruton. He has been involved primarily in informal science education, in the interrelated worlds of the aquarium, museum and interactive science centre.	
		<i>Attendance is free, but booking is essential for all public lectures. RSVP online click here in herit Festival 2026: Public Lecture Series</i>
